Allergy and
Infectious Diseases

Background

- NIH Centers for AIDS Research and NIMH AIDS Research Centers conducting implementation science to serve the Ending the HIV Epidemic (EHE) initiative
- FY19 EHE PrEP projects submitted on MSM and transgender women; **few applications on PrEP for cisgender heterosexual women**
- **Consulted** with members of **the Well Project** to better understand the issues and challenges for women around PrEP accessibility
- FY20 EHE solicitation requested applications to meet the unique needs for cisgender heterosexual women and PrEP; 7 were selected for funding

CFAR and ARC EHE Projects: Reaching Cisgender Heterosexual Women with PrEP

Novel Strategies for Reducing Barriers to HIV Testing and Increasing Access to PrEP for Cisgender Women

Develop and pilot an innovative strategy to increase and normalize HIV testing, PrEP awareness, and PrEP access among cisgender women by expanding and enhancing NYC's HIV home-testing program

Addressing Unmet PrEP Needs among Diverse Black Women

Incorporate PrEP access into a mobile HIV/STI community outreach intervention and determine feasibility and acceptability of PrEP access through this intervention among African-American, African immigrant and Caribbean immigrant women in Suffolk County, Massachusetts

OF ADVANCING
PUBLIC
HEALTH

Optimizing PrEP Engagement among Cisgender Heterosexual Women and their Partners

Address ongoing disparities in access to and uptake of PrEP among cisgender women and their sexual and injection partners working with Baltimore City Health Department and service providers to characterize barriers and facilitators to PrEP engagement

SEPA-PrEP: A Promising HIV Prevention Strategy for Cisgender Hispanic Heterosexual Women (CHHW) to Access, Initiate and Sustain Use of PrEP

Identify barriers to PrEP acceptance and strategies in rural cisgender, heterosexual Hispanic Women in Florida at risk for HIV to increase PrEP use. The study will develop and integrate a PrEP component into SEPA (Salud, Educación, Prevención, Auto-cuidado), an existing HIV program.
